INTRODUCTION

Many people today are spreading from the corporate world and are working from home. With the cost of care of children, high fuel prices, and the need for parents to connect with their children more frequently, working at home has become more popular in the last decade.

Work at home is needed an organized person, who can remain in the date without supervision. Once you begin to work at home, can set the hours you work each day, and you will have the flexibility to break the day when the children or do errands need attention.

Many people are participating in online surveys to earn money at home. There are hundreds of online survey sites that need your opinion on a variety of topics, and they pay you to fill out surveys. Many marketing companies are using this method of research to give them a greater scope of coverage.

This book is filled with information about how you can get your share of money in cash by filling surveys paid online. You will learn how to find the survey sites better paid how to start, how much money you want to earn, and much more.

THE MONEY IS NEEDED, BUT GOD IS FIRST, NEVER TEA
FORGET OF GOD

Tips for answering their surveys

Here are some tips so that you remember to fill out your surveys.

Tip 1

Be honest with your answers.

Always be honest in doing their surveys. Sometimes companies will be looking for someone who works in a given field.

Sometimes you want to make sure that you do not work there. To be honest

You have a chance of guessing the wrong answer 50/50

If it is not accepted after the initial screening, there is always more to come.

Some companies even pay for your preliminary questionnaire.

When it comes to fill a survey remember to put your correct data basically name last name postcode address etc.

Always complete your profile so you can thus have more opportunities to receive surveys.

In addition to receiving payments for surveys also some of these companies also pay for completing offers such as registration, downloads, games, buy etc.

Always remember to check your mail to see invitations survey and thus win money, prizes or points redeemable for money or awards.

Tip 2

Know how much you can earn

To see if it is worth I am often too busy to worry about a survey of 20 minutes that rewards you with another ballot in the monthly draw.

If you can fill it sometimes will tell how much money is going to win and how long it takes the survey.

If a survey of 20 minutes with a value of \$2, if you want to you can make it if not, don't bother you but remember, they are \$2 and \$2 polls are added.

If you are going to earn \$10.00 for a survey of 10-minute try by all means do so that is \$60 per hour.

Some companies get paid money, others give you gifts but the majority pays money there are some money and gift-giving.

Some companies give you points for surveys which you can trade for cash or prizes such as for example amazon gift cards.

Tip 3

Create a different email account

Create an email address only separate surveys can make use of a free email I would recommend Gmail but you can use others like Yahoo mail, Hotmail etc.

Tip 4

Among companies it fits better.

Taken some time after the first records, it becomes easier to register

after spending all that time please enter information on each site, which will give its fruits in the long run.

Many of these companies are in another language but don't worry you know speak another language can use the Google Chrome browser has built-in translator.

It is necessary to complete your profile so you can thus receive more opportunities to answer surveys there are profiles of different categories such as: profiles for personal, auto, phones, family, House, etc.

Another important thing when register can only create an account for each company only polls for an example if you register you can create an account of polls if you register only ciao can create one feature ciao and so on.

Never pay for register in any surveys company.

Tip 5

Learn about payment method

To receive your payment need an account Paypal free since many of these companies use this method of payment, a business account I recommend this type of account allows you to sell and buy i.e. receive and send money, although other companies prefer check or bank transfer as payment of your earned money.

Some have a minimum payment of others have no minimum payment. Remember to always put your correct details so that your money will not be lost.

Tip 6

Choose a user name and password different

Ideally, choose a user name and a password that is different from that normally used with the email, social networks, banking, etc.

Choose a new user name / password, write it so don't forget and then use that same combo for each of the study sites inscribed. Trust me, if you have 200 different passwords that you never know which is which.

If you want a program to make life easier with a password, you can use [Roboform](#).

Try it might be useful for you.

Tip 7

Always read the first email that companies submit.

Many people don't realize that they have to click on a link in their email "satisfaction" to confirm the email address. If you do not confirm your email address for each of these companies they will not receive survey invitations. It only takes a few seconds and it may be worth good money
